

This is the fourth edition of the “Start from Mazovia” competition, aimed at Mazovian start-ups that create innovative ideas and products and have been operating for no longer than 3 years. Companies that take part in the competition have a chance to win prizes with a total value of PLN 90,000, as well as gain valuable contacts, promote their ideas through various communication channels and publicity in industry media.

Who can apply to “Startup from Mazovia”?

The competition is dedicated to start-ups registered in the Mazovia province and operating no longer than 3 years from the date of the competition announcement.

The competition is decided in the following categories:

- INNO-TECH - for start-ups that create new products and processes and significant technological changes
- in products and processes, including product, process, system innovations; for a start-up in the growth phase at the sales stage;
- SOCIAL IMPACT - for a start-up with a positive environmental or social impact, regardless of the stage of development;
- START - for a start-up that creates an innovative project that is at the Minimum Value Product or prototype stage, which is likely to grow and scale effectively.

What does participation in the competition provide?

Assistance in development and, above all, financial support at the beginning of the business road is the dream of many entrepreneurs. Participation in the Mazovian competition gives much more! The total prize pool is PLN 90,000, and additionally it is also a chance to win special prizes from the competition’s Partners, including: substantive consultations related to business development and raising financing, the opportunity to participate in training and mentoring programs, or presentation before a group of investors. Startups can also count on gaining business contacts, promotion of their idea in the media or a professional photo session.
